

## **I WILL WAIT FOR YOU (JACK)**

I will wait for you  
Where the river meets the sea  
Down past the mountains  
That is where I will be

I will wait for you  
No matter how long it takes  
Down past the mountains  
And the deep valley lakes

I will wait for you  
Forever and a day  
Down past the mountains  
That is where I will stay

I will wait for you  
I have no time  
Down past the mountains  
And the rows of wild thyme

I will wait for you  
I have nowhere else to go  
Down past the mountains  
And the fields of snow

I will wait for you  
Let you find your way  
Down past the mountains  
And cornfields of hay

I will wait for you  
Alone and free  
Down past the mountains  
Where the river meets the sea.

Goodbye.
